The Minimum Data Set (MDS) and the Resident Assessment Instrument (RAI) manual was updated October 1, 2019 to address the changes in the Medicare Part A program related to the new Patient-Driven Payment Model (PDPM) with several changes, deletions and additions. This training will provide an in-depth review of the MDS changes as well as a refresher of the MDS items that remain important to the RAI process. We will also review how the MDS impacts Quality Measures and Medicaid reimbursement.
